

## EMERGENCY SERVICES Hôpital L'Eglise de Dieu Réformée

### about

Since the inception of the hospital as a clinic in 2005, there has been a community outcry for around-the-clock medical services. The staffing, equipment, medicine and financial obligations provided a huge obstacle for these services. Finally, in January 2018, we took a leap of faith and opened a basic after-hours emergency clinic. A Haitian physician is onsite 24/7 along with two nurses, a pharmacy technician, and a business office manager. Our radiology staff, ambulance driver and laboratory personnel are on call and ready to react as needed. While our services are basic, lives continue to be saved, as our small emergency services area stabilizes and refers and/or transports to larger hospital centers in Saint Marc or Port au Prince as needed. We continue to add services and education for the hospital staff, as we hope to provide more and more medical treatments and fewer referrals.

MISSIONHAITI  
MEDICAL

### future plans

Our needs are seemingly endless as we strive to provide better patient monitoring, more laboratory exams, and the expansion of our orthopedic and internal medicine programs!
